what my betta loves...

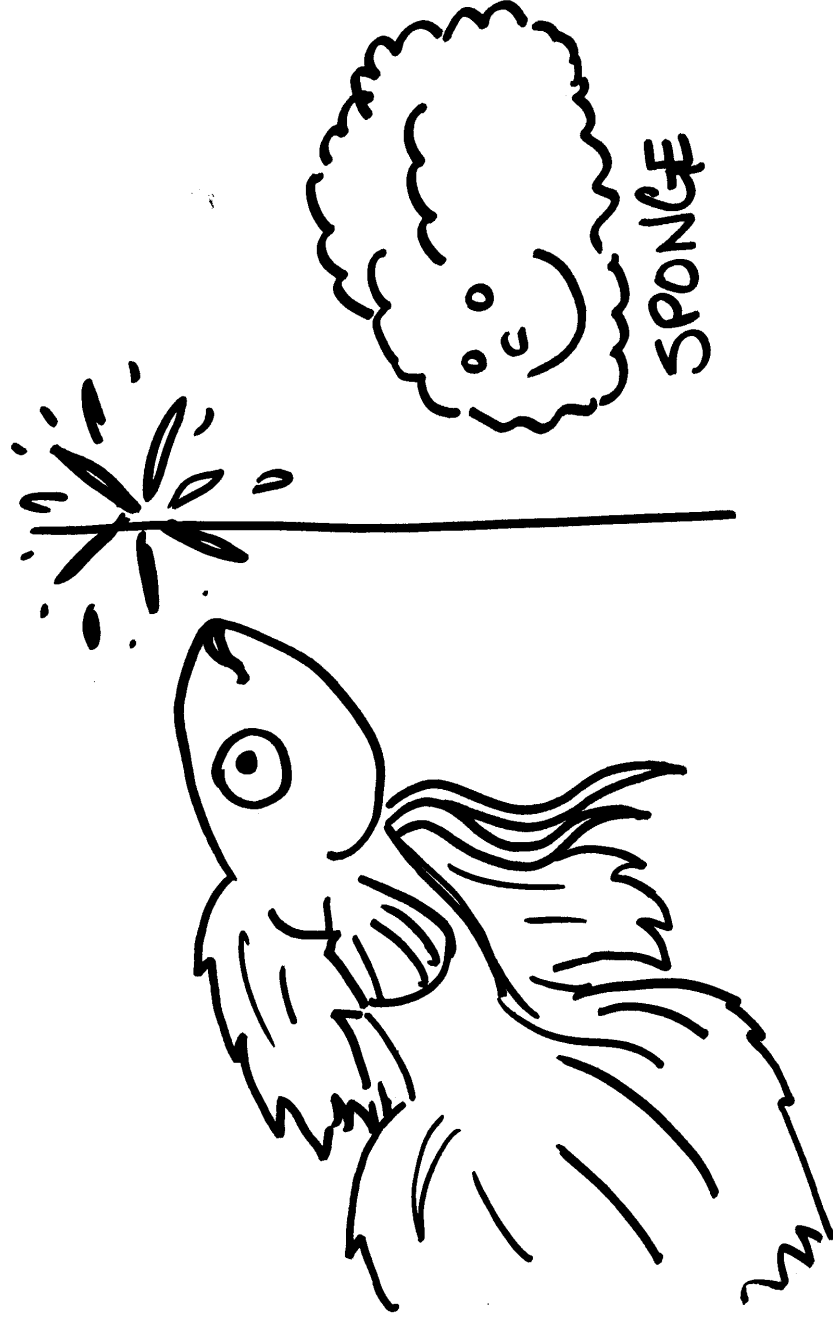

a coloring book
for kids

My betta loves a clean bowl.

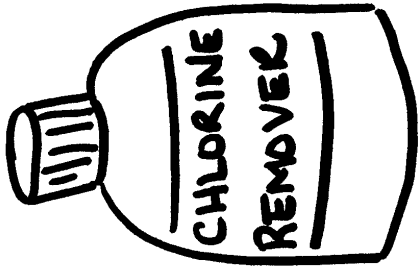

I clean his bowl on a regular schedule and

I never use bleach or soap - only hot water.

My betta loves good water.

Mommy said never use well water or distilled water. I only use spring water or tap water with the drops to make his water safe.

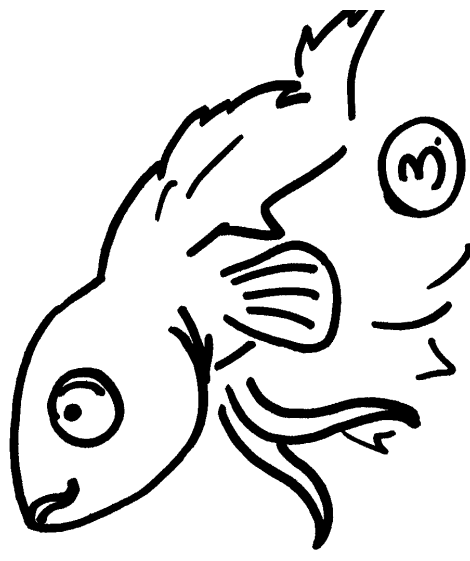

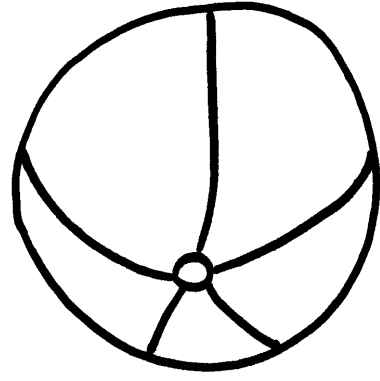

2.

My betta loves warm water.

He likes it best when his water temperature

is...

My betta loves to eat!

**I feed him 3 times a day. Each meal he gets
2 pellets. I am careful to not overfeed him.**

My betta loves to sleep.

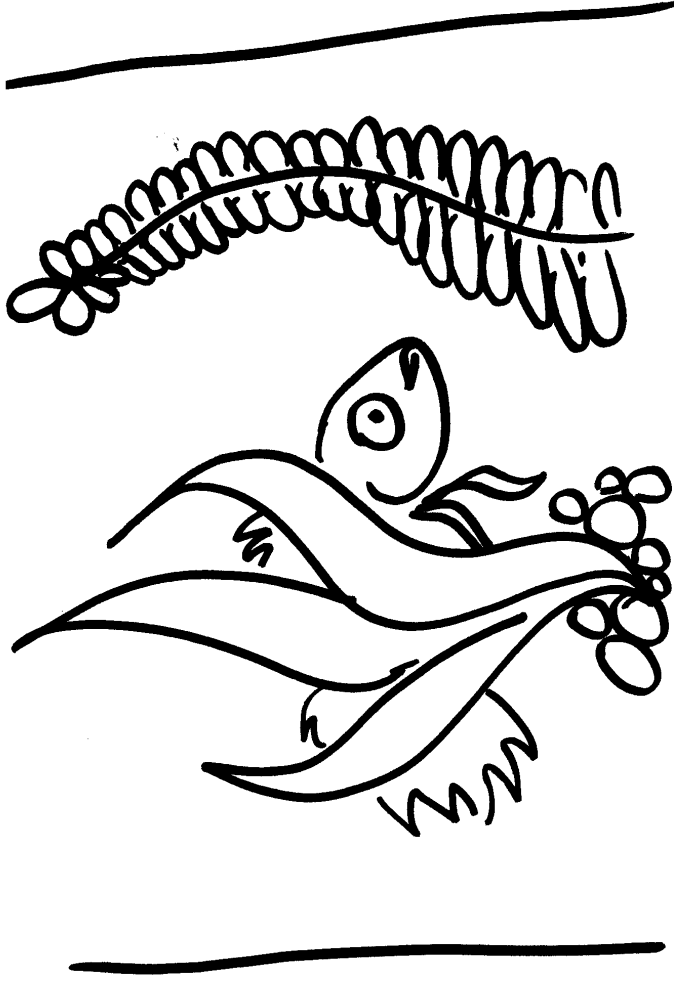

Just so he gets plenty of rest, I
make sure he has a nice, dark place to
lie down.

5.

My betta loves to play in his plants.

So he stays safe, I make sure they are soft
and will not snag his fins.

6.

What does my betta love most?

My betta loves me the most for loving him!!!
